BAVARIAN SEEDERS (patented)

For Greenhouse and Hotbeds

Small, very handy seeders, practical to use in Greenhouses and in Frames where a large machine cannot be used. Will plant almost any variety of seeds except very large seeds, such as Corn, Beans and large seeded Peas. Can be used for Sweet Peas and Beets if the extra Arbor is used. A small brush regulates the feed.

No. 1. One rowed Seeder holds about 4 ozs. of Radish Seeds. Handle can be moved in any direction. Price, $4.00.

No. 1A. Extra Arbor for very small and very large seeds. Price, $0.40.

No. 2. Two rowed Seeder, each compartment same size as on No. 1. Price, $8.00.

No. 2A. Extra Seed Compartment to attach, one wheel. Each, $3.50.

No. 2B. Extra Seed Compartment with two wheels. Each, $3.75.

By adding these extras to the machine a three, four, or five rowed Seeder can be had.

No. 4. Four rowed machine to plant four rows of seeds 2¼ inches apart. The cylinder is made with 3 sets of holes. Price, $8.00.

Pricking Rake, to be used in connection with No. 4, as the space between the teeth is the same as on the seeder. One end of the Rake can be used for loosening the soil between the rows, and the other end can be used as a cultivator or can be inserted in the ground and pulled underneath the plants, cutting all the long tape roots over, instead of transplanting. Price, $1.00.

We do not furnish the wooden handles for any of these machines.
